# Introduction

This guide will show you how to build the necessary queries (searches) for the ESPCN's 'Proactive Care Coordinator Assistant' program in Accuro. These will include queries for quarterly reporting, outreach and for tracking work.

# Contents

Accuro home page will be your starting point when you log in. The icons on the left-hand side will help you to access the EMR; it provides the patient's information, schedule of appointments, tasks assigned, and other functions.

## Accuro Basics/Tips

The icons below will help you to explore how the icon functions and the new screen will open.

Home - Where to find tasks assigned directly to yourself for action.

Calendar - This takes you to the schedule, for you and other providers in the clinic.

Patients - Shows the demographic information for that patient, it is where changes would happen.

EMR – The meat of the patient chart with all documents, chart notes etc. appear.

To capture patient attachment and confirmation, the **patient status**, **office provider**, and **verification** icons should be checked.

Patient Demographics (attachment and confirmation)

| Last Name              | ULI Search Only                                    |
|------------------------|--|
| First Name             | Identifier Search Only                             |
| Middle Name            | Birthdate MM/DD/YYYY                               |
|                        |  |
| Title: Mr. 🔹 Suffix: 💌 | Patient Status: New Patient   Office Provider:None |

## To set the Office Provider

| -           |                        |                      |
|-------------|------------------------|----------------------|
| Last Name   | Health #               | Search Only          |
| First Name  | & Identifier           | Search Only          |
| Middle Name | Birthdate              |                      |
| Mr.<br>Mrs. | Patient Status: Active | Office Provider:None |

1. Click the **Patients** button

on the side bar.

- 2. Click the **Ellipses** button (red box) to the right of the **Office Provider** text box.
- 3. Providers that exist in your clinic are displayed in the search results by default. To select one, click the provider's name to select and click **Select**.
- 4. Click Update Patient.

## To set Patient Status

| Last Name<br>First Name            | Test<br>Brad                              |  | ULI Search | Only                |    | Tester Child 2011-Jul-14<br>Tester Diane<br>Tester Monique 123456789<br>Tester Paul (peter) 1963-Dec-1 V |
|------------------------------------|---|--|------------|---------------------|----|--|
| tle: Mr. V Suffix:                 | Patient Status: Notes Status History Priv | Inactive<br>Active<br>Inactive                 |            | Office Provider:Nor | 18 | < >  |

| 1 Click the <b>Patients</b>        | hutton                                    | on the si                                      | ide bar    |                     |    |  |

2. Click and select the **Patient Status** from the list displayed.

### To set Patient Verified Date (Confirmation)

| Last Nam             | Test                       | ULI Search Only        | Tester Child 2011-Jul-14                 |
|----------------------|----------------------------|------------------------|--|
| First Nam            | ne Brad                    | Identifier Search Only | Tester Diane<br>Tester Monique 123456789 |
| Middle Na            | ame                        | Birthdate MM/DD/YYYYY  | C Tester Paul (peter) 1963-Dec-1 V       |
| Title: Mr. V Suffix: | ✓ Patient Status: Inactive | ✓ Office Provider:     | None 😢                                   |

In the **Patients** window, there will be a button to the right of the 'Office Provider' section. If the patient's information has never been verified, it will show an orange icon with an 'X' is . If the information has been verified in the past, it will show a green icon and the date last verified is 2024-Oct-11.

Click this button to document the date the patient's attachment and demographics were last confirmed. You will be prompted to confirm this action before the chart is date stamped.

You will be prompted to name your new query (you can change this later if needed).

#### ESPCN – Active Panel

When building queries, you will start with the active panel - how the

clinic identifies who their active patients are. It usually includes status of active patient and office provider. This will be the basis for most, if not all, of your queries. (In Accuro, you are prompted to select which office providers' panels to search from when you run a report. A dedicated query line for 'office provider' may not be necessary.)

From here, you can start adding specific criteria to your query. Select the section of the chart you want to your query line to search from in the '**Rule Category**' dropdown menu under '**New Rule**'. Then, select the specific type of information from the list provided. Here, we will start with '**Office Provider**'.

## **Quarterly Reporting Queries**

Most of the queries that you will build will search for patients who are DUE for different laboratory tests and diagnostic imaging. Due is used to search for patients with the absence of certain labs/ documents/ scans/ chart data in a specific date range.

As all the following queries start with our 'active patient' criteria, you can save time by copying your 'Active Panel' query as a starting point.

- 1. Click on the Accuro target  $\diamondsuit$  > Reports > Query Builder (Alerts).
- 2. Select your 'Active Panel' query and click the 'Copy' button 🗎.

# ESPCN – Quarterly - Eligible 18+

#### ESPCN – Quarterly – BP Due

- 1. Copy your 'Eligible 18+' query and name the new one 'ESPCN Quarterly BP Due'
- 2. Rule Category > Labs > Lab Result > 'Lab Type Contains 'BP Systolic' > 'Observation Date In the Last 1 Years' > Check off 'Only Check Latest Result' > Check off 'Include Reviewed Labs'. (The lab type names may vary from clinic to clinic.)
- 3. This time, we will also check off '**Doesn't Match'** in addition to '**Patient Records Only'** as we are looking for patients who do NOT have a BP in their chart within the last year. *We will be checking these off for all our 'Due' queries*. These lines will be highlighted in red. 'Add Rule' to save line.
- 4. Rule Category > Labs > Lab Result > 'Lab Type Contains 'BP Diastolic' > 'Observation Date In the Last 1 Years' > Check off 'Only Check Latest Result' > Check off 'Include Reviewed Labs'. Once again, check off 'Doesn't Match' in addition to 'Patient Records Only'. 'Add Rule' to save line.
- 5. Rule Category > EMR > Preventative Screening > 'History: Contains Blood Pressure' >'Doesn't Match' >'Patient Records Only' > 'Add Rule'. (Again, the location of these observations may vary from clinic to clinic- be sure to check if there are other areas this information is entered and add extra lines as appropriate.

#### ESPCN – Quarterly QI – Patients with Diabetes (Denominator)

For the following queries, we will use **'Advanced Logic'**. Up until this point, all our queries have told the EMR to search for Line 1 criteria *AND* Line 2 criteria *AND* Line 3 criteria, etc. This is the default for queries in Accuro. If we want to tell the EMR to search for Line 1 criteria *OR* Line 2 criteria, we can use **Advanced Logic**.

1. Create the following query. Open the 'Alert Definition Options' -> Check off 'Use Advanced Logic' > 'OK'.

| ESPCN - Quarterly G   | QI - Patients with Diabetes (Denominator)  |       |
|-----------------------|--|-------|
| Current Rules         |  |       |
| Status = 'Active'     |  |       |
| Age Older Than 1      | 18 Years   |       |
| Office Provider =     | = 'Vincent, Denis'   |       |
| Lab Type Contain      | ins 'a1c' AND Value &ot:= '6.5' AND Include Reviewed Labs                          |       |
| Lab Type Contain      | ins 'FBG' OR Contains 'glucose, fast' AND Value >= '7.0' AND Include Reviewed Labs |       |
| ¢°                    |  |       |
| Alert Definition Opti | tions  | ×     |
| Name:                 | QI - Patients with Diabetes (Denominator) Default Display Fields:                  |       |
| Warning:              |  |       |
| Alert Priority:       | Normal ~   |       |
| Include in Tasks      | s Use Advanced Logic   |       |
| For Users:            |  |       |
| Dr. Vincent           | ~  |       |

## **Outreach Queries**

Population/Time Not in Clinic Outreach

Once again, start by copying your 'Active Panel' query and building on for the following queries.

#### ESPCN – Outreach – Pediatrics, No Visit in 2 years

ESPCN - Outreach - Pediatrics, No Visit in 2yrs

Current Rules

Office Provider = 'Vincent,

Status Contains 'Active'

Age Younger Than 18 Years

Appointment Date In the Last 2 Years AND Appointment Provider = "Vincent, Appointment Date In the Next 3 Months

#### ESPCN – Outreach – Adults, No Visit in 3 Years

#### ESPCN - Outreach - Adults, No Visit in 3yrs

Current Rules

Office Provider = "Vincent,

Status Contains 'Active'

Age Between 18 Years and 75 Years

Appointment Date In the Last 3 Years AND Appointment Provider = "Vincent,

Appointment Date In the Next 3 Months

#### ESPCN – Outreach - 75+, No Visit in 1 Year

ESPCN - Outreach - 75+, No Visit in 1 year

Current Rules

Office Provider = 'Vincent,

Status Contains 'Active'

Age Older Than 75 Years

Appointment Date In the Last 1 Year AND Appointment Provider = "Vincent,

Appointment Date In the Next 3 Months

#### ESPCN – Outreach - Chronic Disease, No Visit in 1 Year Outreach

| ESPCN - Outreach - Chroni | c Disease, Novisit in 1 year |
|---------------------------|------------------------------|
|---------------------------|------------------------------|

Current Rules

| Office Provider = 'Vincent,  |
|--|
| Status = 'Active'  |
| Age Younger Than 75 Years  |
| Diagnosis Diagnosis Code Contains '250' OR Contains '401' OR Contains '413' OR Contains '414' OR Contains '428' OR Contains '496' OR |
| Appointment Date In the Last 1 Year AND Appointment Provider = "Vincent, "   |
| Appointment Date In the Next 3 Months  |
| Order Type Contains 'Adults, No Appt. in 3 Years' AND Order Order Date In the Last 3 Months  |

The chronic disease codes are:

- 250 Diabetes
- 401 Hypertension
- 410 Acute MI
- 411 Other Acute & Subacute MI
- 412 Old MI
- 413 Angina
- 414 Other forms of Chronic Ischemic Heart Disease
- 420 Acute Pericarditis
- 421 Acute and Subacute Endocarditis
- 422 Acute Myocarditis
- 423 Other Diseases of Pericardium
- 424 Other Diseases of Endocardium
- 425 Cardiomyopathy
- 426 Conduction Disorders
- 427 Cardiac Dysrhythmias
- 428 Heart Failure
- 429 Ill-defined Descriptions of Heart Disease
- 440 Atherosclerosis
- 441 Aortic Aneurysm
- 491 Chronic Bronchitis
- 492 Emphysema
- 496 Chronic Airway Obstruction
- 585 Chronic Renal Failure
- 586 Renal Failure, Unspecified

**NOTE:** For Chronic Disease Outreach and the five Screening Outreach queries, we also add a line to exclude patients who have had an order applied for 'Adult, No Appt. in 3 Years' outreach within the last three months to avoid duplication of work.

## Screening Outreach Queries

An easy way to create your outreach queries for screening due and no appointment in one year is to copy the 'due' query you created earlier for each respective screen and add your appointment criteria as well as the Adult Outreach order exclusion criteria.

#### ESPCN – Outreach - Pap Due, No Visit in 1 Year

| ESPCN - Outreach - Pap Due, No visit in 1 year  |
